

Instruction for use

ANH3811 / ANH3828

Please read the instruction before you start assembling !

Safety Rules

- ✓ Please read the instructions carefully and keep it for future reference.
- ✓ During the use of product, special care must be taken. The product is not a toy and should be used by children under adult supervision.
- ✓ People with intellectual or physical disabilities may use the product only under the special supervision of their caretaker.
- ✓ Never exceed the maximum product load:
Chair – 120 kgs, tea table – 30 kgs, bench – 240 kgs.
- ✓ It is forbidden to use the product under the influence of alcohol, other intoxicants and strong drugs.
- ✓ Use the product in a recreational manner, as intended. Do not stand or climb on the product.
- ✓ Do not move the product when people, animals or any objects are on it.
- ✓ The product must be placed in a safe and stable place, on a hard surface, at least 3 meters from any fire sources such as grill, fireplace, gas heater, etc. The product must be kept away from tree branches, clothes lines, cables, electric wires and other potentially dangerous objects.
- ✓ Do not place hot drinks on the product (cups and glasses with hot drinks) or other heated cookware.
- ✓ Please do not leave the product unattended to the ground without special supervision. The product should be protected against humidity and strong sunlight.
- ✓ Do not put your legs and hands between the elements of the product - it may cause serious injuries.
- ✓ It is not recommended to use the product by pregnant women.
- ✓ In the event of a defect, do not continue the exploitation of the product. It is forbidden to use the product if you notice any defects, such as bends, cracks, loosening and curvatures, etc.

Maintenance, intended use of the product

1. The color of the wood may slightly differ from the color presented on the label.
2. The product is intended for recreational use at temperatures from 10 to 35 degrees Celsius and humidity not higher than 65%.
3. Protect the product against adverse weather conditions (wind, rain, storms, high humidity, snow, frost, strong insolation, high temperature, hail, etc.). Store the product indoors or use a special cover for furniture.
4. If the elements are scratched, it is recommended to use a special varnish, paint or silicone to prevent corrosion. Please first make a test on an invisible part of the product.
5. When cleaning the product, use a soft, damp sponge with the addition of soap. Do not use solvent-based cleaners or detergents. Bleach can damage the product. Regular dust removal is recommended. After rain, please wipe the product. It is forbidden to use pressure washers and brushes.
6. Avoid overexposure to the sun of the product. It can cause the product to fade. We are not liable for this.

Be careful when assembling !

7. It is recommended to store the product in a dry place during the winter. Before storing the product, dry it thoroughly.
8. Please regularly check the tightness of bolts, nuts and other elements. Please tighten the screws at least once a year for long-term maintenance.
9. The product is powder coated, so in sensitive points, after heavy rainfall, slight rust may appear. Please remember that the product must be protected against rain.

Assembly instructions

- ✓ Please read the instructions carefully before you start assembling to ensure you have all components listed on instructions. In case of missing or damaged parts, do not continue the assembly process. Later complaints will not be accepted. We are not liable for any damage on the assembled product.
- ✓ It is recommended to assemble with 2 people. While assembling ensure floor is even.
- ✓ When assembling, use protective gloves.
- ✓ Do not tighten all screws completely until the entire unit has been assembled and set up. Do not overtighten.
- ✓ During assembly, please pay special attention to children and other people around. Keep the product away from dogs, cats and other animals. The kit contains small and sharp elements that can be swallowed and cause injury.
- ✓ It is recommended to use the packaging as a base during assembling the product. This helps to avoid scratches and other damage.
- ✓ Make sure that the product is completely assembled as shown in the picture. We are not liable for any damage or consequential loss, if the incorrect assembly caused the damage.
- ✓ Damage caused by incorrect assembly are not under guarantee.
- ✓ Please consider the environment when disposing of all packaging.
